

Imperial College London, UK

31st Aug – 1st Sept 2017

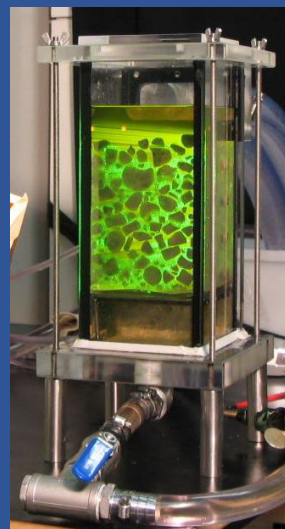

ISSMGE Technical Committee:

TC 105 Geo-Mechanics from Micro to Macro

TC 213 Scour and Erosion

Seepage Induced Geotechnical Instability

Workshop exploring recent
developments considering seepage
and instability in cohesionless soil

Thursday Aug 31st: 1pm-5:30 pm

Chair: Martin Preene (Preene Groundwater Consulting)

UK Industrial Perspective:

Ljiljana Spasic-Gril (ARUP)

Dr. Toby Roberts (WJ Groundwater)

Dr. Chris Menkiti (GCG)

Recent Design Guidance:

Dr. Brian Simpson (ARUP / EC7)

Dr. Philip Smith (Royal Haskoning DHV/
International Levee Handbook)

Mr. Rod Bridle (ICOLD Bulletin 164)

Dr. -Ing. Bernhard Odenwald (BAW)

Friday Sept 1st : 9 am – 1 pm

Chair: Prof. D. Muir Wood (Dundee)

Experimental Research:

Prof. Jonathan Fannin (Univ. British Columbia)

Prof. Akihiro Takahashi (Tokyo Institute of Tech.)

Prof. Didier Marot (University of Nantes)

UK Research Perspective:

Dr. Elisabeth Bowman (Sheffield)

Dr. Catherine O'Sullivan (Imperial College)

Dr. Tom Shire (Imperial College / Glasgow)

Dr. Adnan Sufian (Imperial College/ Sydney)

Dr. Philippe Sentenac (Strathclyde)

Registration fee (including workshop dinner)

Members of British Geotechnical Association (BGA) / British
Dam Society (BDS) : £75 (Before July 31)

Young Members of BGA/BDS: £50 (Before July 31)

Other participants / After Aug. 1: £100
