BRITISH DAM SOCIETY WARWICK CONFERENCE - 2008

Ensuring reservoir safety for the future

NOTES FOR GUIDANCE OF PARTICIPANTS IN DISCUSSION

- Delegates wishing to take part in discussion should complete Form A and hand it in at the conference desk before the start of the relevant session.
- Contributors should state their name and affiliation and keep their contribution brief, not more than five minutes.
- It is proposed to publish a record of the discussion. Delegates who wish their contribution to be published must provide a written version using FORM B and **preferably email it to the technical reporter for the relevant session.** Written contributions must be handed in at the conference desk before the end of the conference or emailed **not later than two weeks** after the conference. E mail addresses of the technical reporters are as follows:

Session	Title	Technical Reporter
1	UK reservoir research and legislation	paul.harrison@jacobs.com
2	Internal erosion	goffca@halcrow.com
3	Dam break analysis and risk assessment	Stuart.J.King@scottish-southern.co.uk
4	Design, analysis and monitoring	Clare.A.Winter@uk.mwhglobal.com
5	2007 storms and UK reservoir safety issues	Simon.Hickman@atkinsglobal.com
6	Construction, remedial works and discontinuance – Session 1	tyrone.blyth@mottmac.com
7	Construction, remedial works and discontinuance – Session 2	Sad.Buray@severntrent.co.uk

- **Informal, spontaneous discussion is encouraged**
