

1<sup>st</sup> Announcement – International Workshop on

# Landslide-generated Impulse Waves in Reservoirs

November 25, 2019, Ittigen (Berne), Switzerland

Ten years after its publication a revised and amended edition of the SFOE/VAW manual 'Landslide generated impulse waves in reservoirs' will be presented during this workshop. The one-day event includes an introduction to the general computation procedure, various case studies, as well as hands-on exercises. Full program and registration on [swissdams.ch](http://swissdams.ch) from August 2019.
