The British Dam Society

#BDSMonday

Due to the unfortunate cancellation of the 2020 conference, the BDS has decided to host a number of lunchtime webinars throughout September 2020 to showcase some of the papers we received in preparation for the conference.

There will be a session held every Monday starting on the 7th of September in the run up to our AGM meeting and virtual Binnie Lecture by John Gosden on the 5th October 2020.

The Embankment Dam

Within this session there are 4 papers that cover main safety aspects of an embankment dam. This includes flood routing/spillways, earthquake, internal erosion and slope stability

Time	Presenter (paper reference)	Title
12:00	Alan Warren	Welcome and introduction
12:05	Richard Williams	Spillway Investigation and Emergency Works at Lower Carno Reservoir
12:15	David Hawthorn	Earthquakes and Dams: Remote and direct monitoring of the effects of UK seismic activity on reservoir infrastructure.
12:25	Jenny Richardson	Rhodeswood Reservoir - A combined approach to the investigation and remediation of an ageing asset
12:35	Matt Coombs and David Brown	Elton Reservoir Slip and Spillway Works
12:45	Jim Cook	RoGEP - Register of Ground Engineering Professionals
12:50	Alan Warren	Q&A Live session and close
