Reservoir Safety Strategy – Two Years On

The joint Environment Agency/Defra Reservoir R & D Strategy was launched two years ago. The purpose of this event is to share with the audience, the progress and key results, on the current or completed projects.

Confirmed talks as follows:

- Lessons learnt from historical dam incidents - Alan Warren, Halcrow & Paul Tedd BRE
- Long term period rainfall extension (FEH) – Lisa Stewart, CEH Wallingford
- Modes of failure (scoping study) – Rachel King, Arup
- Impacts of climate change on Dams – Andy Hughes, Atkins
- Review of science and practice supporting emergency planning for dams – Andy Hughes, Atkins
- Research into stepped, masonry spillway chutes at dams - Claire Winter, MWH
